Swords

This article is an expansion based on a canon element. For canon information on this topic, follow the link to The Witcher Wiki: [Swords](#).

This fan-fiction article, **Swords**, was written by [Witcher190](#) and [Adalwulf of Aedirn](#). Please do not edit this fiction without the writers' permission.

"Until you understand what a sword is, and what purpose it serves in a witcher's hand, you will not pick one up. You are not learning in order to kill and be killed. You are not learning to kill out of fear and hatred, but in order to save lives. Your own and those of others."

—Geralt to Ciri

A **sword** is a long, edged piece of metal, consisting of a long blade attached to a hilt that is used as a cutting, thrusting, and clubbing weapon in many civilizations throughout the world. The blade can be straight or curved. Typically the monster hunter caste of witchers would carry two swords: a steel sword for humanoids as well as beasts and a silver sword for supernatural creatures. Most of the users of this weapon usually give them a name.

The use of swords is typically called Swordsmanship or Fencing.
